2023 Holiday Gift Guide

"Tis The Season **For Flavor!**

Bon Appetit TV said “we’ve never tasted anything like it” and said Brahman Country Beef® had “flavor for days!”

Once you taste Brahman beef, you’ll understand why. There’s a lot of good beef out there, but beef lovers fawn over the sheer amount of robust flavor packed into every bit of Brahman Country Beef®. On top of that, Brahman beef packs an added nutritional punch, maintaining strong marbling, but replacing bad fats with good fats—making it a heart-healthy choice. Brahman Country Beef® is the perfect protein choice for the health-conscious beef eater who craves amazing flavor.

Raised with Pride
from the Cutrer Family
to Yours!

Texan cattle ranchers Rachel and Brandon Cutrer know a thing or two about Brahman beef – they are 7th and 8th generation Brahman ranchers with agricultural roots dating back to the 1800's. They work together every day on their family land, where they're committed to optimal cattle health, nutrition, and quality. In 2022, they were named "Seedstock Producer of the Year" by the Beef Improvement Federation, recognizing them as the #1 rancher in the United States across all breeds of cattle.

Rachel's ancestors were pioneers in bringing the Brahman breed to the United States. So, it's only fitting that the Cutrer's were the first family to bring a branded Brahman beef product to the USA marketplace.

In 2018, they created Brahman Country Beef as a way to share their generations of ranching heritage and give others a healthy protein choice with a flavor you won't soon forget.
